

Idaho Football Federation Joins Malaga North American Academy

March 10, 2017 – Malaga C.F. have formed a partnership with the Idaho based soccer organization Idaho Football Federation.

The Idaho Football Federation (IFF) is an independent youth soccer organization in the southwest region of Idaho and located in Boise. Since 2008, the Idaho Football Federation has offered a variety of tournaments, leagues and elite identification camps, all which are open to all players regardless of association affiliation (USYSA, US Club Soccer or others) or club registration. This federation aspires to expose players to not only outdoor soccer but also to other types of soccer (indoor, futsal, beach and street soccer). One of the ultimate goals of the IFF is to offer advanced players an accessible path to top European soccer clubs and this is done in collaboration with our partner Global Image Sports.

The partnership will see the Malaga North American Academy hosting a series of Elite Player ID events with IFF. Malaga will send Academy staff members from Spain this summer to work with IFF players, the ID camp will be hosted by IFF on July 28-31, for more info [click here](#). The best male and female players at this ID camp will be invited to attend the Malaga Elite Academy Player Experience at our Academy in Malaga, Spain.

Juanjo Carmona, IFF President, stated: “This partnership with GIS and Málaga CF creates a unique path for the most serious players in Idaho so they can be exposed to top training from coaches coming from Spain’s La Liga club, Málaga CF. This partnership will also give top players accessibility to travel to Spain and be part of the European Training Experiences or to attend the Elite Camps in the Málaga CF Academy facilities in southern Spain. There, they will be immersed in one of the best Spanish clubs, will live their philosophy and will be privileged to work with their pro youth academy coaches.” Carmona added that “IFF ultimate goal is to see some of these players from Idaho selected as Málaga CF academy prospects with total academy access and identical experience as the pro club academy players.”

Global Image Sports and Malaga are very excited with Idaho Football Federation, and are looking forward for a long and successful relationship.
